

Artificial Grass

KDF

Sports Flooring Systems & Building Materials

FOOTBALL

KDF's artificial grass is designed especially for football pitches providing enjoyable game and durability at the same time. Those grass systems have perfect performance referring to ball roll and bounce, sliding and also weather durability.

1. Warranted performance for 5 years as minimum period.
2. Exceptional resistance to all weather conditions.
3. Provides comfortable, safe game and is sliding-friendly(no skin burn).
4. Looks like natural grass.
5. Great feeling when you play on.

TENNIS

KDF's tennis court grass, meets all the requirements for international and domestic tennis tournaments, tennis clubs, schools and home courts. It has excellent durability to all weather conditions in hot and cold climates.

1. It's absolutely durable and provides a safe game.
2. Can be used also during wet weather with great anti-slip properties.
3. Excellent look.
4. Our synthetic tennis court turfs meet the highest playing standards set by the INTERNATIONAL TENNIS FEDERATION (I.T.F).

HOCKEY

KDF's artificial grass for synthetic hockey turf meets the standards for true ball roll, assuring player safety and comfortable playing.

1. Combines excellent ball roll and bounce.
2. Precise ball control.
3. Provides a cushion surface and a comfortable play.
4. Uniform playing characteristics, predictable ball behavior and optimal grip.

LANDSCAPE

KDF's landscape grass with fine yarn, has the appearance of natural grass, needs no watering or any kind of maintenance, and it's the optimum replacement of natural grass. It has been widely used for different applications including indoor and outdoor decoration, landscape projects, surroundings of hotels and of villas, roof gardens etc.

You can enjoy the beautiful greenish solution no matter if it is spring, summer, autumn, or winter. Especially suggested for hot climates where watering is an issue. No maintenance needed at all.

POLITURF DIAMOND 60130

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, diamond shape

Pile height: 60mm

Dtex: 13000

Secondary backing: Black, SBR latex

POLITURF PLATINUM 60120

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, stem shape

Pile height: 60mm

Dtex: 12000

Secondary backing: Black, SBR latex

POLITURF EMERALD 60110

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, diamond shape

Pile height: 60mm

Dtex: 11000

Secondary backing: Black, SBR latex

POLITURF PREMIUM 55130

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, diamond shape

Pile height: 55mm

Dtex: 13000

Secondary backing: Black, SBR latex

POLITURF IMPERIAL 50140

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, stem shape

Pile height: 50mm

Dtex: 14000

Secondary backing: Black, SBR latex

POLITURF SUPERIOR 50130

Synthetic turf for stadiums and mini football courts.

Yarn type: Polyethylene monofilament, diamond shape

Pile height: 50mm

Dtex: 13000

Secondary backing: Black, SBR latex

POLITURF SPLENDID 1988

Synthetic turf for tennis courts.

Yarn type: Polyethylene monofilament, diamond shape
Pile height: 19mm
Dtex: 8800
Secondary backing: Black, SBR latex

POLITURF CHAMPION 1880

Synthetic turf for hockey courts.

Yarn type: Polyethylene monofilament
Pile height: 18mm
Dtex: 8000
Secondary backing: PU

DECOGRASS ELEGANT 35120

Synthetic turf for landscape projects.

Yarn type: Polyethylene monofilament, spine shape
Pile height: 35mm
