## Cast decorative flooring

Innovative, uniform, cast, decorative, slip-resistant concrete flooring applied in-situ, consisting of colored pebbles and/or colored marble grains, chemical additives and improvers, pigments, special quartz aggregates, fibers and cement. Its basic feature is high aesthetics and the possibility to create a great number of combinations, allowing the customer to create their own flooring solutions. It is offered in 54 background colors which are combined harmoniously with pebbles and/or marble grains (in granulometry of 1-1,5cm), according to the requirements of the architect/designer and the needs of the given area. It is applied on fresh or old concrete, creating a slip-resistant floor unaffected by weather conditions and without any need for maintenance. It is constituted of 4 different materials: GRAINFLOOR PRIMER 871, GRAINFLOOR MIX 877, GRAINFLOOR REVEAL 875 and GRAINFLOOR PROTECT 876.

**Recommended for outdoor and indoor surfaces such as surrounding areas of hotels, houses, pools and inside them, corridors, pavements, squares.**
